What to expect

- **Parking:** roadside on the west side of Airport Road, across from Finnerty Sideroad. Airport Road is busy, so load the dog on the side away from traffic.
- **Road walking:** since the main Trail moved off Airport Road in 2025, the Songbird Side Trail is no longer connected to it, and you walk a stretch of road shoulder to reach it. Several shorter main-Trail stretches also follow road shoulders. Keep the dog close.
- **Songbird Side Trail:** passes through mature sugar maple forest, hedgerows and thickets, and old farm meadow now in native grasses. It's an eBird hotspot; listen for Indigo Bunting, Brown Thrasher, Bobolink and Eastern Meadowlark. Volunteers hauled out two bins of scrap metal in 2012, the year the trail was blazed.
- **Paris Moraine Side Trail:** hummocky glacial terrain of knobs, ridges and wet hollows (kettles) left by the retreating ice sheet about 13,000 years ago. It was once part of the main Trail and was named in 2025.
- **Dogs:** allowed on leash. Keep the dog on the trail in the meadows, where ground-nesting birds like Bobolink live.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on the Caledon Hills Bruce Trail Club's Songbird and Paris Moraine side-trail stories.
