Day 48 | 12.5 km (7.7 mi)

What to expect

- **Parking:** Roadside on the **north side** of Maple Lane only; parking is prohibited on the south side. Do not block driveways.
- **Road walking:** Several stretches follow road shoulders: parts of the Swiss Meadows Side Trail, the Loree Side Trail, and the main Bruce Trail at both ends. Keep Zappy close on these sections.
- **Loree Side Trail & main trail:** A trail guide describes the white-blazed main trail dropping through a steep valley and climbing to a ridge with views north, then running west near the top of the private Georgian Peaks ski club. The blue-blazed Loree Side Trail forms the return of that loop.
- **Intercept Side Trail:** A short (about 200 m) blue-blazed link between a road curve and the main Bruce Trail.
- **Swiss Meadows Side Trail:** We found no published description of this side trail; expect a mix of trail and road-shoulder walking per the route.
- **Length:** At about 12.7 km this is a longer day with several road connections between trail sections; allow extra time.

Turn-by-turn

12.5	7.7	Back at the parking. Hike complete.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Ontario Nature Trails; little was found on the Swiss Meadows Side Trail.
