What to expect

- **Parking:** Roadside on the east side of Townline Road, north of the entrance to the Townline Access Side Trail.
- **Metcalfe Rock:** The main trail climbs the side of Metcalfe Rock; one trip report describes a fine view from the summit across the Mill Creek Valley.
- **Crevices and caves:** Large dolostone slabs have broken away to form crevices and caves; the short Metcalfe Crevice Side Trail descends through a rocky gorge about 30 m high. It is described as very challenging, more so with ice or snow. Crevices have long drops and off-trail chutes are easy to get lost in; keep Zappy on a short leash.
- **Chuck & Pat Grant Side Trail:** A magazine walk describes the side trail descending the north side of Metcalfe Rock, with the forest changing from deciduous to coniferous.
- **Townline Access Side Trail:** Links the roadside parking to the main trail; no further details were found.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Escarpment Magazine and a Vanderplas family trip report.
