What to expect

- **Parking:** There is room for several cars on Kemble Rock Rd at the Nels Maher Side Trail.
- **Kemble Mountain:** A trip report describes the main trail after Kemble Rock Rd running along a wide dolostone outcrop on top of the Escarpment, then through shady forest with dense Canadian wild ginger, ferns and mushrooms. It's a good choice for a hot day.
- **Dodd's Hill:** The Sydenham club says the stretch from Kemble Mountain to Dodd's Hill is "filled with fissures" and full of ferns. Watch your footing and keep Zappy on a short leash near the cracks in the rock.
- **Edmonstone and Nels Maher side trails:** Together with the main trail they form a loop of about 3 km through mixed hardwood forest, according to Ontario Nature Trails. The short Dodds Hill Side Trail is a quick spur off the main trail.
- **Dogs:** Zappy stays on leash. The Sydenham club asks that dogs be leashed and kept under control, especially near farmland, and suggests an orange or fluorescent harness or bandana in hunting season so a dog isn't mistaken for wildlife.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on the Sydenham Bruce Trail Club, Ontario Nature Trails and a Holmstrom Ruddick trip report.
