Day 68 | 12.7 km (7.9 mi)

What to expect

- **Parking:** Roadside parking on the grassy shoulder at the bend of Coveney's Rd. Don't block private laneways.
- **Road walking:** The Coveney's Side Trail begins and ends with a stretch along Coveney's Rd. The main trail also has a short road section each way. Walk on the shoulder and keep Zappy close.
- **Main Bruce Trail along Malcolm Bluff:** A 2015 trip report describes the escarpment edge as mature forest with little elevation change and firm, sometimes rocky footing. It mentions good views of Hay, Griffith and White Cloud Islands at the mouth of Colpoy's Bay. Stay back from the edge, where the report noted loose dolostone blocks.
- **Bob Light and Malcolm Bluff Side Trails:** Just before the Malcolm Bluff turn, the trail crosses an alvar, a stretch of open dolostone pavement with little soil. Ontario Nature Trails rates the area loop moderate, on natural and rocky ground.
- **Wildlife:** This area borders Malcolm Bluff Shores Nature Reserve, where black bears have been recorded.
- **Distance:** At 12.9 km, this is a long day. Ontario Nature Trails rates the Coveney's Side Trail area difficult, so pace yourselves and carry plenty of water.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Ontario Nature Trails, Ontario Nature and the Vanderplas family's Bruce Trail journal.
