What to expect

- **Parking:** Enter from Campbellville Rd. A reservation system is in effect; Conservation Halton recommends booking online, which secures a spot and can lower the gate fee. Listed park hours are 8:30 a.m. to 7 p.m.
- **Philip Gosling Side Trail:** A short link from the main lot to the Bruce Trail. A trip report notes the reservoir stays hidden behind a ridge along this stretch.

- **Hilton Falls Side Trail:** Leads to the falls, which flow in every season. Stone remains of three 19th-century sawmills sit at the brow, and a small viewing platform is reached by stairs. The rocks below are slippery; keep Zappy back from wet rock.
- **Main trail and the Gap:** The Bruce Trail crosses “The Gap,” an open-pit quarry cut in 1962, on a footbridge with views over the active quarry, farmland and, on clear days, distant skylines.
- **Restoration Side Trail:** A brief spur looking over a closed section of the quarry that is being restored to natural land.
- **Road walking:** Two stretches of the main trail follow a road shoulder; keep Zappy close and walk single file facing traffic.
- **Shared trails:** The park also has mountain-bike single-track, and horses are allowed on its red, purple and yellow trails (not on the Bruce Trail). Watch for bikes and horses where trails meet.

Parking options

No other official Bruce Trail parking lies within about 1 km of this route. If you need to stop early, turn back the way you came; the GPS track records what you covered, and the website shows what is left.

Parking costs were checked in October 2026 from operator websites and Bruce Trail Conservancy data; prices and booking rules change, so check before you go.

Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Conservation Halton, Hiking the GTA and georgetownon.ca.
