Day 40 | 12.0 km (7.5 mi)

What to expect

- **Parking:** Off-road lot on Centre Rd, south of the 5 Sideroad, at the edge of the forest; a 170 m trail leads to the Bruce Trail. The lot is not accessible in winter and roadside parking is prohibited. Boyne Valley is a non-operating park with no staff, washrooms or other facilities.
- **New side-trail network:** On September 25, 2026 the trails here were reconfigured because of seasonal flooding: a damaged bridge was removed and a low-lying section was rerouted. The former Boyne Valley Side Trail is now main Trail, and the Meadows, Centre Road, Murphy's Pinnacle and Boyne Valley Rim side trails are new. Older maps and signs may not match.
- **Murphy's Pinnacle Side Trail:** A 660 m side trail to a scenic viewpoint, early in the route.
- **Boyne Valley Rim and Meadows side trails:** The 2.5 km Rim trail is the spine of this loop, and the 1.2 km Meadows trail closes it. No published descriptions of their terrain were found yet.
- **Primrose Loop and Prince of Wales side trails:** Unchanged by the 2026 work. The Primrose Loop is about 4 km across the Primrose area; Prince of Wales is a short connector. No terrain details were found.
- **Wayfinding:** There is no posted trail map in the park, so follow the blue side-trail blazes and the guide's directions.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on a Bruce Trail Conservancy trail-change notice and Ontario Hiking; details on the new side trails were thin.
