What to expect

- **Parking:** Beaver Valley Lookout on the west side of Grey Rd 13, roughly 750 m north of the Bruce Trail. The Beaver Valley club notes parking and washrooms close to the new trail network.
- **Eagle's Summit Nature Reserve:** About 123 acres of escarpment forest, meadows, karst, and hawthorn and apple groves just south of Kimberley, named for the Bald Eagles seen overhead. Listen for Ovenbird, American Redstart and Black-and-white Warbler.

- **Main Trail:** Rerouted in July 2025 along the escarpment crest; the 2.4 km reroute moved about 1.6 km of trail off roads and into forest and meadow with panoramic views.
- **New side trails:** Seven side trails opened in 2025, including the 3.2 km East Mountain loop and the short Cascades, Valley Vistas, Rockface, East Eagle's Summit, Pond View and Erratic View trails. Together they reach forests, meadows, rock faces, gorges, ponds and wide views of the Beaver Valley. Individual trail descriptions were not published.
- **Valley Crossover Side Trail:** No published description was found.
- **Cautions:** With rock faces and gorges on this network, keep Zappy close and stay back from edges. At 11.1 km with many junctions, follow the guide's directions closely.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on the Bruce Trail Conservancy's Eagle's Summit pages and trail-change notices and the Beaver Valley Bruce Trail Club.
