What to expect

- **Parking:** Off-road parking on the west side of 6th Line north of Grey Road 119. Do not block farm lanes. A local hiking club describes parking in the area as very limited.
- **Road walking:** Short road-shoulder sections on the main Bruce Trail at the start and end, and on part of the Margaret Paull Side Trail. Keep Zappy close.
- **Margaret Paull Side Trail:** Meadows, forest and fields, with wildflowers in spring. A local club rates the loop moderate because of a couple of uneven, rocky ascents and descents.
- **Highlights:** Views over the Beaver Valley, ravines, a rock formation described as a flowerpot, and the headwaters of Indian Brook running over dolostone ledges. The route passes near the E.C. Carr Astronomical Observatory (RASC).

Parking options

No other official Bruce Trail parking lies within about 1 km of this route. If you need to stop early, turn back the way you came; the GPS track records what you covered, and the website shows what is left.

Parking costs were checked in October 2026 from operator websites and Bruce Trail Conservancy data; prices and booking rules change, so check before you go.

Turn-by-turn

4.2	2.6	Back at the parking. Hike complete.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on the Beaver Valley Probus Club hike listing and komoot.
