Day 53 | 12.2 km (7.6 mi)

What to expect

- **Parking:** Roadside on 7th Line at the start of the Wodehouse Karst Side Trail.
- **Wodehouse Karst:** Described as having one of the finest groups of sinkholes in southern Ontario. Wodehouse Creek disappears into a sinkhole and later re-emerges as a small cascade down the valley slope. There are views toward Old Baldy. Stay on the trail: the area mixes private and public land.
- **Kimberley Forest:** About 1,000 acres, mostly Crown land, with the Bruce Trail running north–south through it and the Beaver River flowing across the base of the forest. Licensed hunting and trapping are permitted, so in fall wear bright colours and put a bright vest on Zappy.
- **Road walking:** The Kimberley Forest and Valley Crossover side trails each include road-shoulder stretches. Keep Zappy close.
- **Valley Crossover Side Trail:** We found no published description of this side trail beyond the route data.
- **Length:** At about 12.8 km this is one of the longer days; allow extra time.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Visit Grey and a Geocaching.com site description; little was found on the Valley Crossover Side Trail.
