What to expect

- **Parking:** Limited parking on the north side of the road at the Mallory Beach Side Trail. Arrive early.
- **Colpoy's Bluff Side Trail:** The longest stretch of the day. Ontario Nature Trails describes about 4 km of blue blazes between the Crawford Dr Side Trail and the Whicher Side Trail. We found no description of its footing.
- **Whicher Side Trail and the disappearing stream:** A short spur off the Whicher Side Trail leads to a disappearing stream, which a Hike Bike Travel writer counted among the trail's "gems".
- **Main Bruce Trail along Colpoy's Bay Bluff:** A 2015 trip report describes mature forest along the escarpment edge with little elevation change and firm, sometimes rocky footing. It mentions occasional spectacular lookouts over Colpoy's Bay. Sharon's Bench, a memorial to Bruce Trail hiker Sharon France, sits near the Mallory Beach Side Trail.

- **Cliff edge:** The same report notes large dolostone blocks along the edge that looked ready to fall. Stay back from the lip at lookouts and keep Zappy close on a short leash.
- **Distance:** At 12.6 km, this is a full day. Bring enough water for both of you, since the route has no amenities.
- **Gatis and Mallory Beach Side Trails:** Short blue-blazed connectors. Ontario Nature Trails uses them as shortcuts in the Colpoy's Bluff loop, but it doesn't describe them. We found no details on their footing.

Distances and junctions are computed from the Bruce Trail Conservancy's trail data (Bruce County GIS). Left/right is calculated from the trail geometry. Use it as a guide, follow the blazes, and check the Conservancy's trail-change notices before you go. Dogs must be leashed everywhere on the Bruce Trail. Trail descriptions draw on Ontario Nature Trails, Hike Bike Travel and the Vanderplas family's Bruce Trail journal.
